

You've invested in systems to automate virtually every aspect of your business. Documents, spreadsheets, emails, and attachments are circulating everywhere. Now you realize...

**Wasn't this supposed to make my data  
EASIER TO FIND???**

**e.r.i.s**<sup>tm</sup>

Customer Based Data Management

### **ERIS is Intuitive**

specifically designed for small to mid sized businesses, data is stored logically - just like you think about it. Data can be easily retrieved by customer or by project

### **ERIS is Flexible**

integrates seamlessly with Microsoft Office and other common programs. Acts like a personal assistant constantly keeping your files in perfect order.

### **ERIS is Customizable**

incorporate custom applications and business systems
